REDBRIDGE INTERNATIONAL ACADEMY UNVEILS INNOVATIVE INITIATIVES FOR 2025-26

**REDBRIDGE
INTERNATIONAL
ACADEMY**
K-12 International School

Redbridge International Academy Unveils Innovative Initiatives for 2024-25 Redbridge International Academy, a leading institution renowned for its commitment to excellence in education, at its vast green expansive campus has unveiled a series of groundbreaking initiatives for the 2024-25 academic year. These new measures aim to enhance the educational experience, foster a dynamic learning environment, and prepare students for a rapidly evolving global landscape.

1. Enhanced Curriculum Integration

One of the most notable changes is the integration of a IGCSE & ICSE, into more comprehensive and globally-oriented curriculum. Redbridge International Academy is introducing a series of interdisciplinary courses that combine STEM subjects with the humanities, encouraging students to make connections across different fields of study. This approach is designed to promote critical thinking and problem solving skills, preparing students for the complexities of the modern world.

2. Advanced Technology in Campus

In response to the growing importance of technology in education, the Academy has significantly upgraded its technological infrastructure. New interactive smartboards, state-of-the-art virtual reality (VR) systems, and advanced learning management systems (LMS) have been implemented. These tools aim to create a more engaging and immersive learning experience, allowing students to explore subjects in new and innovative ways. Besides, numerous subject wise softwares are being used to supplement learning outcomes. Other areas like transportation, security are all fully tech-enabled.

3. Expansion of Extracurricular Programs

Recognizing the importance of holistic development, Redbridge International Academy has expanded its extracurricular offerings. The new initiatives include the introduction of specialized clubs and programs focusing on areas such as coding, robotics, and environmental sustainability. Along with partnerships like Furtados School of Music, Holding professional Art Exhibitions & auction of art work of students is a hugely motivational tool, started by the school. Additionally, partnerships with local and international organizations provide students with opportunities for internships and real-world experiences. The new cricket pitch is an added attraction for the students!

4. Emphasis on Mental Health and Wellbeing

The well-being of students remains a top priority. The Academy has introduced a comprehensive mental health program that includes workshops, counseling services, and wellness activities. This initiative aims to support students in managing stress, building resilience, and maintaining a healthy balance between academic and personal life.

5. Sustainable Practices and Green Initiatives

In line with global sustainability goals, Redbridge International Academy is adopting a range of green practices. These include a new waste reduction program, energy-efficient facilities, and educational modules on environmental stewardship. The Academy is committed to reducing its carbon footprint and instilling a sense of environmental responsibility in its students. Organic farming & Occasional outdoors, gurukul type classes are efforts in this direction.

6. Strengthened Global Connections

The Academy is also enhancing its international partnerships to provide students with a broader global perspective. New exchange programs, collaborative projects with schools around the world, and international guest speakers will enrich the learning experience and help students develop a deeper understanding of different cultures and global issues, as well as guidance on studying abroad.

7. Focus on Personalized Learning

To cater to diverse learning styles and needs, Redbridge International Academy is implementing a personalized learning approach. This includes adaptive learning technologies and individualized support plans to ensure that each student can progress at their own pace and receive the attention they need to succeed.

8. Parent Communications

In an endeavor to address any parent concerns, asap, Redbridge has created a new communication desk, with an officer, solely tasked to interact with parents, as a single window & address concerns if any, along with a separate parent & whatsapp line. Besides, "We've listening" Webinar series are held for direct interaction of top school management, with the parents.

9. Hostel

The Hostel comforts facilities have been upgraded to offer the boarders, modern amenities, aesthetics & comfort, along with delicious homemade food and interested activities & outings. These innovative initiatives reflect Redbridge International Academy's dedication to preparing students for a future that is both challenging and full of opportunities. By embracing cutting-edge technology, expanding educational programs, and prioritizing student well-being, the Academy is set to continue its tradition of excellence in education for the 2024-25 academic year and beyond

BEST CBSE SCHOOLS IN BENGALURU 2025

Dear readers,

Every January we take a fresh look at the ideas, institutions, and innovators shaping India's future. This year, as IndianPreneur turns its lens toward education, we arrive in a city that hardly needs an introduction. Bengaluru's startup-savvy streets may be synonymous with code, venture capital, and cutting-edge research, yet the story begins much earlier—inside classrooms where curiosity is sparked and lifelong values are etched. The 2025 edition of “Best CBSE Schools in Bengaluru” is our tribute to the teachers, administrators, parents, and of course the thousands of students who power the Garden City's academic engine.

Why CBSE, and why now?

The Central Board of Secondary Education continues to be the gold standard for families seeking a national curriculum that balances rigor with flexibility. With new policies in full swing and technology reshaping pedagogy at lightning speed, Bengaluru's CBSE schools have emerged as national bellwethers. They are weaving AI-enabled labs, design-thinking studios, mindfulness corners, and play-based early-years programs into a single seamless fabric—proof that scholastic excellence and holistic growth can co-exist.

How we built the list

Our editorial research team spent six months poring over board results, Olympiad medals, teacher qualifications, safety audits, parent satisfaction scores, and—equally important—intangibles such as campus culture and community outreach. We interviewed principals, shadowed classes, sampled meals in canteens, and spoke to alumni now thriving across the globe. What follows is not a ranking but a curated showcase—schools that, in 2025, set benchmarks their peers can learn from.

Highlights from every quadrant of the city

East Bengaluru continues to prove that technology can live in harmony with tradition. New Horizon Gurukul, Marathahalli radiates value-based education while sending toppers to IITs and Ivy League universities alike. Just a few kilometres away, The Brigade School, Mahadevapura invites pupils to question first and memorise later through its inquiry-driven labs and theatre-rich co-curricular calendar. The multicultural corridors of Global Indian International School, Whitefield remind us that a CBSE spine and an international outlook are not mutually exclusive.

In West Bengaluru, legacy institutions hold sway. National Public School, Rajajinagar

retains its reputation for academic exactitude, illustrating how disciplined mentorship can coexist with robotics clubs and TEDx youth forums. Presidency School, Nandini Layout exemplifies holistic learning, running everything from Kodava language circles to competitive swimming under one roof, while Vidya Soudha Public School, Peenya shows how thoughtfully deployed ed-tech can narrow learning gaps in real time.

North Bengaluru is where sprawling campuses meet open skies. Delhi Public School, Yelahanka sprawls across acres of playing fields and innovation hubs, flipping the “all work, no play” stereotype on its head. Kensri School, Hebbal is a reminder that a strong sports culture can reinforce academic grit, its students clinching both CBSE merit certificates and national cricket trophies. Meanwhile, Orchids The International School, Sahakarnagar makes STEAM affordable, and Sindhi High School, Hebbal underscores that consistency—year after year—is an achievement in itself.

Together, these institutions paint a mosaic of what 21st-century Indian schooling can look like: digital-first yet deeply human, competitive yet collaborative, rooted in local values yet global in ambition.

A note of gratitude

An editorial endeavour of this scope succeeds only because Bengaluru’s educators opened their doors—and their data—to us. To every

principal who spared a Wednesday afternoon, every teacher who let our reporters sit in the back row, and every student who spoke candidly about homework, friendships, and dreams: thank you. Your stories remind us that education is not a product, but a relationship.

As you leaf through the pages ahead, we invite you to do more than admire glossy photos of amphitheatre classrooms or innovation labs. Ask how these ideas can travel—across pin codes, across socio-economic tiers, across systemic barriers. If a school in Whitefield can integrate yoga philosophy into AI labs, why not elsewhere? If a campus in Peenya can turn waste into 3D-printing filament, why can’t an entire district?

Here’s to the educators building India’s future, one curious mind at a time. We hope this issue informs your choices, sparks conversations, and, above all, celebrates the relentless pursuit of excellence that defines Bengaluru’s CBSE ecosystem in 2025.

Happy reading,
— Editor

BANGALORE'S EDUCATION LANDSCAPE

In the heart of India's technological capital lies a parallel revolution, one not powered by code, but by classrooms. Bengaluru, long celebrated for its innovation and entrepreneurial spirit, is also home to one of the most dynamic and evolving education ecosystems in the country. From historic institutions that have shaped generations to cutting-edge campuses redefining 21st-century learning, the city has become a beacon for academic excellence. Among its many achievements, Bengaluru has emerged as a thriving hub for CBSE-affiliated schools, offering students a strong academic foundation rooted in national standards yet rich with local innovation.

The Central Board of Secondary Education (CBSE) continues to be the preferred choice for thousands of families seeking a structured, future-ready curriculum. In a city where professional ambitions are high and global outlooks common, CBSE schools strike a balance between academic rigour and holistic development. They foster critical thinking, creativity, and communication—skills that today's learners need to thrive in tomorrow's world.

But with so many schools delivering outstanding results and innovative practices, choosing the right one can feel overwhelming. That's why Indianpreneur's special issue: Best CBSE Schools in Bengaluru 2025 was born, not just as a list, but as a guide. Our editorial team has spent months curating insights, reviewing data, speaking with educators, and listening to parent and student experiences. The

result is a nuanced look at the schools that are shaping the future, one learner at a time.

At the forefront of this issue is an institution that embodies excellence, vision, and leadership: The Brigade Schools, gracing our cover. Led by the visionary Mrs. Githa Shankar, the Founder of The Brigade Schools, this group of institutions stands as a testament to what's possible when quality education meets deep-rooted values. With a blend of academic discipline, co-curricular richness, and a compassionate approach to child development, The Brigade Schools have earned a reputation as one of Bengaluru's finest. Mrs. Shankar's mission, to raise responsible citizens through inclusive, value-based education, continues to inspire parents, teachers, and learners alike.

Inside this issue, you'll find thoughtfully written profiles of top-performing CBSE schools across the city, insights from educators and school leaders, and practical advice for families navigating the school selection process. From sprawling campuses in Whitefield to legacy institutions in Jayanagar, this guide reflects the diversity, depth, and distinctiveness of CBSE education in Bengaluru.

Education in Bengaluru is not just about academic scores, it's about nurturing the whole child. It's about schools that teach beyond textbooks, leaders who think beyond boundaries, and students who dream beyond borders. And that's what this issue celebrates.

Welcome to the Best CBSE Schools in Bengaluru 2025. The future is already in session.

CHOOSING EXCELLENCE

electing the right school for your child is one of the most important decisions you'll make as a parent. It's not just about academics—this choice shapes your child's overall development, future opportunities, and even influences your family's daily life. From curriculum and commute time to teaching quality and extracurricular exposure, multiple factors must be weighed carefully.

To navigate this complex decision, the best place to begin is by identifying your priorities:

- **Location** – How far is the school? Is the commute safe and manageable?
- **Curriculum** – Does the school offer a balanced, well-structured academic framework that emphasises both learning and application?
- **Activities** – Are there clubs, sports, and extracurricular options that nurture creativity, leadership, and teamwork?
- **Faculty** – Are the teachers qualified, approachable, and diverse enough to connect with every kind of learner?
- **School Size** – Does the student population support both community-building and individual attention?

While no one school fits every family, The Brigade Schools come remarkably close to meeting a wide range of parental expectations. With three branches strategically located at J.P. Nagar, Mahadevapura (Whitefield), and Mallechwaram, they offer accessibility without compromising quality. Backed by the legacy and trust of the Brigade Foundation, these schools combine strong academic fundamentals with a holistic development approach—making them stand out as premier educational institutions within Bengaluru.

The Brigade Schools recognise that each child is unique. Their approach is rooted in nurturing individual potential while providing ample opportunities across academics, sports and the arts. Their consistent recognition among the best CBSE schools in Bangalore isn't just a matter of reputation—it's a reflection of a deep-seated commitment to balancing India's rich cultural ethos with a modern, global perspective.

From instilling firm roots in tradition to expanding a child's worldview across cultures and lifestyles, The Brigade Schools are not merely educating—they're shaping future-ready citizens.

The Brigade School, J P Nagar

The Brigade Schools in a Nutshell

Affiliated with the CBSE curriculum, The Brigade Schools offer a dynamic and engaging learning environment designed to foster critical thinking, effective communication and a lifelong love for knowledge. At the heart of their approach is a strong community made up of dedicated educators, supportive parents, and motivated students—all working together to shape confident, socially responsible young individuals.

The schools boast advanced infrastructure and state-of-the-art facilities. Their educational philosophy is anchored in the four foundational pillars—Children, Coaches, Curriculum and Character—

each playing a vital role in building a well-rounded academic institution.

Driven by a clear vision to be centres of excellence, The Brigade Schools are committed to continuous improvement. Every student is encouraged to grow and succeed through the guidance of skilled facilitators, the use of innovative learning tools and the assurance of a safe and secure environment.

A Future-Ready Pedagogy

The Brigade Schools follow a structured, interactive and child-centric pedagogy that places the learner at the core of the educational experience. Guided by the inspiring motto, “O nanna chetana, aagu nee aniketana”—which translates to “O my spirit, transcend all boundaries!”—the schools are committed to unlocking each child’s potential and nurturing them to reach greater heights.

Their teaching methodology is rooted in interdisciplinary and inquiry-based learning, where concepts are not taught in isolation but are connected to real-life contexts. Students are encouraged to explore, question and analyse, making learning both meaningful and relevant.

Mrs. Githa Shankar - Founder of The Brigade Schools, Bengaluru

Mrs. Githa Shankar, deeply committed to education and philanthropy, has been instrumental in founding The Brigade Schools. A multi-faceted personality, Mrs. Shankar's commitment to education and her passion for innovation has earned The Brigade Schools a reputation of being institutions of all-around excellence. Mrs. Shankar is widely respected for her visionary leadership and encourages students to develop a worldview and become global citizens, giving them the perfect balance between education and extracurricular activities.

Mrs. Shankar strongly believes in making a difference and introduced the programme 'Passion with Compassion', providing opportunities for students to give back to society. We need more philanthropists like Mrs. Shankar to encourage our young and groom them to believe in Indian Roots, Global Wings!

The Brigade School, Mahadevpura (Whiterfield)

Hands-on activities, experiments and project-based assignments further enrich the learning process.

Blended learning, which combines traditional classroom methods with modern technological tools, is employed to ensure a deeper and more versatile understanding of concepts. There is a strong emphasis on developing analytical and critical thinking skills through discussions, debates and case studies, while students are also encouraged to think independently and find creative solutions to real-world challenges.

Empowering Education Through World-Class Infrastructure and Security

The Brigade Schools are equipped with a wide range of facilities that support both academic excellence and all-round development. The campuses house well-furnished laboratories for Physics, Chemistry, Biology, Mathematics,

The Brigade School, Malleshwaram

Computer Science, Life Skills, Languages and Montessori education, providing students with essential hands-on learning experiences. The spacious and well-stocked libraries at each campus offer a diverse selection of reference, fiction and non-fiction books, nurturing a love for reading and research from an early age.

To promote physical fitness, discipline and teamwork, the schools offer extensive sports infrastructure including a 200-meter athletic track, basketball and volleyball courts, a football field, a swimming pool and dedicated spaces for field events. Trained physical education instructors and professional coaches ensure that students receive quality guidance across various sports disciplines. Additionally, the JP Nagar and Mahadevapura campuses feature state-of-the-art, air-conditioned auditoriums that serve as vibrant venues for cultural programs, performances and school events.

Safety and security are top priorities across all campuses. The Brigade Schools strictly

adhere to the safety norms laid down by the CBSE and the Government of Karnataka. CCTV surveillance is in place throughout the premises, while entry and exit points are closely monitored by well-trained and vetted security personnel, including female guards to ensure the safety of girl students. A strict visitor management system is followed and teacher supervision on every floor ensures that student movement is always monitored. Emergency preparedness is reinforced through regular mock fire drills and policies addressing all forms of bullying—physical, verbal, or online, are strictly implemented.

To ensure student accountability, permission slips are required for classroom exits and children are only released to parent-designated individuals. Medical care is readily accessible through on-campus infirmaries staffed with qualified nurses and each school maintains close ties with nearby hospitals for timely medical support in case of emergencies.

Blending Innovation with Care

The Brigade Schools place a strong emphasis on integrating technology into the learning process, ensuring it enhances rather than replaces effective teaching practices. Teachers are encouraged to utilise digital tools through classroom projects, assignments and interactive activities, allowing students to engage with content in dynamic and meaningful ways. The schools recognise that while technology is indispensable, it must be coupled with strong pedagogical knowledge to truly transform learning. To this end, educators are equipped through ongoing workshops, hands-on training, and practical field experiences, enabling them to stay current and confident in using technology as a tool for deeper learning.

In addition to academic advancement, The Brigade Schools are deeply committed to the mental health and overall well-being of their students. A comprehensive support system is in place that includes professional counselling services by the school counsellors, individual attention from faculty and regular health and wellness initiatives. By fostering both intellectual growth and emotional resilience, The Brigade Schools create an environment where every child is empowered to thrive—academically, socially, and personally—preparing them to face the future with confidence, curiosity and compassion.

BGS NATIONAL PUBLIC SCHOOL

*Building an Educational
Ecosystem for the Future*

bgsnps.edu.in

In the evolving world of education, schools are no longer mere centers of academic instruction—they are ecosystems where intellect, emotion, character, and community spirit are cultivated together. At the forefront of this progressive educational philosophy stands BGS National Public School (BGS NPS), located in Hulimavu, Bannerghatta Road, Bangalore. A proud initiative of the Sri Adichunchanagiri Shikshana Trust, BGS NPS embodies the essence of a holistic learning environment, seamlessly blending academic excellence with spiritual grounding and social consciousness.

LEGACY ROOTED IN SERVICE AND EXCELLENCE

Established on June 22, 2006, BGS NPS operates under the aegis of a trust that runs over 500 educational institutions across India, including renowned medical, engineering, and management colleges. This vast network brings

a wealth of shared wisdom and opportunity, helping BGS NPS students benefit from an ecosystem of academic innovation and cross-disciplinary exposure. The school is affiliated with the CBSE and offers education from Kindergarten to Grade 12, consistently maintaining a strong academic reputation while encouraging creativity and character development.

A SPIRITUAL ETHOS THAT SHAPES CHARACTER

What distinguishes BGS NPS is its unwavering adherence to the spiritual values envisioned by Jagadguru Padmabhusan Sri Sri Sri Dr. Balangadaranatha Maha Swamiji. The school's culture is rooted in reverence, discipline, humility, and compassion, laying a strong moral foundation for its students. These values are not merely taught—they are lived, creating an environment where respect and empathy define relationships between students, faculty, and the broader community.

SYMBOLISM THAT INSPIRES PURPOSE

The school's logo incorporates powerful symbols such as the Peacock, the Trishul, and the Sun—each representing deeper ideals. The peacock, echoing the hues of Lord Krishna's plume, symbolizes grace, beauty, and boundless potential. The trishul and sun together evoke resilience, purity of purpose, and the promise of growth. These symbols are more than aesthetic—they serve as daily reminders of the school's values and vision.

A HUB FOR HOLISTIC DEVELOPMENT

BGS NPS offers much more than classroom instruction. Through vibrant platforms like BGS Kreedavaibhav (sports fest) and BGS Utsav (cultural showcase), the school actively promotes well-rounded development. Co-curricular and extracurricular pursuits are designed to encourage students to explore passions, lead teams, express creatively, and stay physically fit—ensuring the development of the mind, body, and spirit.

SERVING WITH HEART: SOCIAL RESPONSIBILITY IN ACTION

Living the principle of "Service to Mankind is Service to God," BGS NPS emphasizes community outreach as a core component of education.

Students have actively supported the BGS Blind School in Ramanagara, among other initiatives, demonstrating empathy in action. Regular service-learning projects, environmental drives, and health camps help inculcate civic responsibility and a spirit of altruism in every student.

FORWARD-LOOKING VISION

As education evolves, BGS NPS continues to embrace change with intention. The school aims to expand its infrastructure, integrate emerging technologies, and diversify its learning platforms to remain aligned with global standards. While academic excellence remains paramount, the future will focus on fostering leadership, innovation, and global citizenship, ensuring that students not only succeed but lead with integrity.

WHY BGS NPS STANDS OUT

BGS National Public School is more than a school—it's a life-shaping experience. With a strong academic base, a value-driven culture, and a relentless pursuit of excellence, BGS NPS prepares students not just for exams, but for life itself. In an age of shifting priorities, BGS NPS reminds us that the true purpose of education is not just success, but significance.

DELHI PUBLIC SCHOOL, BANGALORE NORTH

*Educating for Life,
Not Just Exams*

north.dpsbangalore.edu.in

In an age where education must transcend textbooks to shape responsive, compassionate, and future-ready citizens, Delhi Public School, Bangalore North (DPSBN) emerges as a model of what contemporary schooling can achieve. Established in 2002 under the aegis of the KKECT Trust, DPSBN has steadily risen as one of India's most respected CBSE institutions, known for blending academic rigour with inclusive values, sustainability practices, and experiential learning. At a time when parents worry that board-driven pressures might narrow a child's growth, DPSBN shows that scholastic excellence and holistic development can—and must—go hand in hand.

A CAMPUS ROOTED IN INCLUSION AND PURPOSE

Set on a lush 40-acre campus in Jalahalli, DPSBN offers an environment where learning flows organically between smart classrooms, nature

park, and amphitheatres. The school's inclusive ethos is its cornerstone. Offering CBSE, Cambridge IGCSE, IB, and NIOS streams, it caters to a wide range of learners and learning needs. Dedicated counsellors and special educators ensure that children of all abilities are supported, respected, and celebrated. The guiding belief here is that education must adapt to the learner, not the other way around.

LEARNING THAT CONNECTS KNOWLEDGE TO THE WORLD

Academic life at DPSBN is defined by inquiry, application, and global perspective. Students engage in design thinking, problem-solving and interdisciplinary projects that extend learning beyond textbooks. Recognized by the British Council with the International Dimension in Schools award and accredited as a Pasch Schule by the German Embassy, the school places global citizenship at the core of its curriculum. Atal

Tinkering Labs encourage innovation, while theme-based exhibitions and experiential learning days connect ideas to action. Whether debating UN policies or building eco-models, students are taught to think deeply, speak clearly, and act ethically.

FACILITIES THAT INSPIRE EXPLORATION

DPSBN's infrastructure reflects its educational ambition. Science, robotics, and math labs offer space for hands-on experimentation. Libraries—both digital and print—nurture independent research, while studios for music, art, and theatre promote creative fluency. Outdoor learning flourishes in the school's butterfly park, orchard zones, and kitchen garden, where students explore ecology and sustainability first-hand. A mini-golf course, roller-skating rink, and professional-grade sports fields make physical literacy part of daily life. Safety and wellbeing are also priorities, with 24/7 security, a medical infirmary, and CCTV-monitored premises.

NURTURING EMOTIONAL INTELLIGENCE AND SOCIAL IMPACT

True to its motto, Service Before Self, DPSBN invests deeply in life skills and emotional wellbeing. Weekly SEL (Social-Emotional Learning) sessions, peer mentorship programs, and a full-time counsellor team provide students with tools to manage stress, build empathy, and handle conflict with maturity. Community engagement is woven into the school's fabric—students partner with NGOs like Red Cross, Goonj and Retina India,

participating in blood donation drives, heritage preservation, and rural outreach. Green practices like rainwater harvesting, solar panels, and organic composting transform sustainability into lived responsibility.

ACHIEVEMENTS THAT REFLECT DEPTH AND VISION

Awards and rankings echo the school's depth. DPSBN was named among the top schools in India by Education World and Education Today, and received the Brainfeed School Excellence Award for holistic education. It was also conferred the National Award for Inclusive Education in 2023—proof that values-led learning can stand shoulder to shoulder with academic accomplishment. Its consistent 100% pass rates in CBSE Class X and XII, coupled with high national averages, reinforce that nurturing the whole child need not come at the cost of performance.

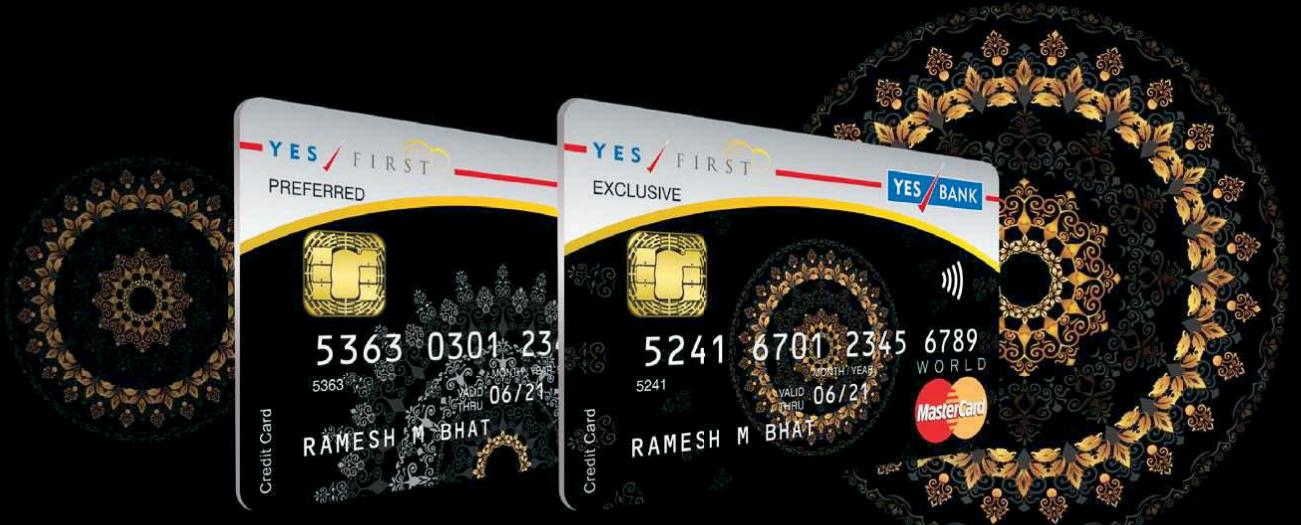

WHY DPSBN MATTERS

At a time when families seek schools that balance academic ambition with emotional safety and real-world relevance, Delhi Public School, Bangalore North offers a powerful case study. It proves that a CBSE school can be global in outlook, inclusive in spirit, and uncompromising in standards. By equipping students not just to take exams but to take on life—with its complexities, responsibilities, and opportunities—DPSBN embodies the essence of modern holistic education. It is not merely creating achievers, but shaping citizens of character, purpose, and impact.

DELHI PUBLIC SCHOOL, BANGALORE SOUTH

*A Legacy Rooted in Vision
and Values*

south.dpsbangalore.edu.in

In the pursuit of educational excellence, few institutions in India have managed to balance academic rigor, ethical values, and global relevance as seamlessly as Delhi Public School, Bangalore South. Established in 2001 under the aegis of The Delhi Public School Society, New Delhi and the K K Educational and Charitable Trust—led by Shri K. Rahman Khan, former Union Minister for Minority Affairs—the school has since grown into a cornerstone of progressive CBSE education in Bangalore.

Affiliated with the Central Board of Secondary Education (CBSE), New Delhi, DPS Bangalore South has carved a distinct identity not just for academic achievement but for shaping socially conscious, emotionally intelligent, and globally minded individuals.

A SUSTAINABLE SCHOOL WITH A GLOBAL CONSCIENCE

What truly sets DPS Bangalore South apart is its status as an SDG School, aligning itself with

the United Nations' Sustainable Development Goals. The school sees education as more than a classroom experience—it is a cultural, structural, and attitudinal transformation. Students are empowered to make informed choices, advocate for equity, lead responsibly, and embrace change. By embedding sustainability and global citizenship into the curriculum and co-curricular life, DPS South nurtures future-ready changemakers equipped to address global challenges at the local level.

ACADEMIC DISTINCTION, YEAR AFTER YEAR

DPS Bangalore South has consistently produced top-ranking students in India's most competitive entrance exams including IIT-JEE, NEET, CLAT, NIFT, CA, and CAT. Alumni of the school have gone on to excel at top institutions in India and abroad, thanks to a learning environment that emphasizes conceptual clarity, analytical thinking, and interdisciplinary curiosity. Smart classrooms,

well-equipped science and computer labs, and inquiry-based pedagogies foster intellectual independence while keeping students engaged and inspired.

The school's holistic approach ensures that excellence isn't just measured by grades, but also by the strength of character and clarity of purpose with which students walk into the world.

CHAMPIONS ON AND OFF THE FIELD

DPS South is also home to a thriving sports culture. Students have earned accolades at state, national, and even international sporting events, proving their mettle across disciplines such as athletics, swimming, football, badminton, and more. The school's world-class sports facilities, including dedicated coaches and structured training programs, ensure that every student has the opportunity to pursue physical excellence alongside academics.

Beyond competition, sports are viewed as a powerful vehicle for teamwork, discipline, resilience, and leadership—qualities the school sees as central to holistic development.

EMPOWERED LEARNING, INSIDE AND OUTSIDE THE CLASSROOM

At DPS Bangalore South, education extends far beyond textbooks. Through an array of clubs, student-led initiatives, exchange programs, and community outreach efforts, students are encouraged to discover their passions and grow into confident, articulate, and empathetic individuals.

Whether it's environmental stewardship projects, Model UN conferences, or service-learning campaigns aligned with the SDGs, students are empowered to lead with conviction and contribute meaningfully to the world around them.

A SCHOOL THAT PREPARES STUDENTS FOR LIFE

At its core, DPS Bangalore South believes in nurturing empowered learners, compassionate citizens, and visionary leaders. The school's dynamic blend of academic excellence, moral grounding, sustainable values, and global perspective has helped it become one of the most respected CBSE institutions in South India.

In a rapidly transforming world, DPS South continues to stand tall as a school that not only prepares students for exams but equips them for life—with purpose, perspective, and passion.

PRESIDENCY SCHOOL, BANGALORE NORTH

Moving Past Rote Learning

presidencyschoolnorth.org

For generations the Indian classroom equated “good schooling” with an encyclopedic memory and tidy report cards. Yet twenty-first-century life rewards far more than recall. Critical thinking, collaboration, empathy and resilience now count just as much as academic scores. This shift has nudged the Central Board of Secondary Education (CBSE) towards inquiry-oriented classrooms, and schools that respond fastest are emerging as torch-bearers of a new, balanced paradigm. Among them, Presidency School, Bangalore North (PSBN) in Yelahanka stands out for weaving cognitive rigour with emotional and physical growth, preparing children for “the complexities of life” rather than a single exam bell.

A VISION BEYOND TEXTBOOKS

Founded in 2012 as part of the larger Presidency Group of Institutions, PSBN begins with a simple belief: every learner is an individual first, a

syllabus-taker second. Its mission statement speaks of nurturing “socially responsible, emotionally resilient and globally minded” citizens. Daily practice backs the rhetoric—class discussions that value reflection over right answers, theme-based projects that blend subjects, and service-learning drives that push students to solve real local problems.

CURRICULUM THAT SPARKS CURIOSITY

From Pre-KG Montessori corners to senior-school electives, lessons are designed around inquiry cycles—observe, question, experiment, reflect. Seventy-six smart classrooms support digital simulations; dedicated language, robotics, and math labs encourage tinkering; while the Oxford Reading Tree programme in a 14,000-title library builds deep reading habits. Regular “micro-teaching” among 130 teachers keeps pedagogy fresh and research-based. Unsurprisingly, PSBN posts a 100 percent pass rate in CBSE Class X

and XII boards, yet still carves out time every afternoon for clubs ranging from MUN to pottery.

A 6.5-ACRE CANVAS FOR GROWTH

Learning spills outdoors on a lush, eco-friendly campus just off Doddaballapur Road. Two main blocks host classrooms and administration, but attention quickly drifts to the amphitheatre, shaded courtyards and wide playfields. Children dive into a swimming pool, glide on a roller-skating rink, or train on tennis, basketball and cricket facilities that rival professional clubs. Locker-equipped corridors lighten schoolbags, and a parents' lounge signals an open-door ethos.

CULTIVATING HEARTS AS WELL AS MINDS

Weekly life-skills periods tackle conflict resolution and mindfulness; a full-time counsellor guides social-emotional learning; and house camaraderie is built through art, music and theatre fests in the open amphitheatre. Community-service projects—from lake-clean-ups to blood-donation camps—let students witness impact first-hand, turning empathy into habit. The approach resonates with parents who praise the “positive ambience” and disciplined but caring culture.

RECOGNITION ON THE NATIONAL STAGE

Awards follow substance. PSBN earned the British Council's coveted International School Award (2017-18) for global-citizenship projects, ranked #1 CBSE school in North Bengaluru in the Times School Survey 2024, and secured an all-India #13 position in Outlook's Bharat School Day-School rankings. Such external validation confirms that holistic ideals can sit comfortably alongside measurable excellence.

WHY PSBN MATTERS

At a moment when parents fear that choice of board might narrow a child's horizon, Presidency School, Bangalore North offers a reassuring counter-example. It shows that the CBSE framework can be stretched to include design thinking, service action and sporting grit without sacrificing examination success. By treating intellect, emotion and body as inseparable, PSBN is not merely teaching pupils how to score; it is teaching them how to live, lead and contribute. In doing so, the school captures the very essence of modern holistic education—an education that remembers the head must grow in lock-step with the heart.

THE INDIAN PUBLIC SCHOOL BENGALURU

Bridging Dreams and Reality

tips-bengaluru.org

In today's fast-paced world, where the gap between aspiration and achievement often looms large, The Indian Public School (TIPS) Bengaluru stands out as a beacon of balanced education. Situated opposite Manyata Tech Park in Nagavara, this CBSE-affiliated co-ed day school, founded in 2015, prides itself on nurturing each child's full potential through a blend of academic rigor, values-rooted character building, and real-world readiness.

A CAMPUS DESIGNED FOR HOLISTIC GROWTH

Nestled in HBR Layout, just off the Outer Ring Road, TIPS Bengaluru occupies over half an acre within a well-connected zone near Hebbal and Manyata Garden City. The school boasts 22 smart classrooms, six well-equipped labs (science, computer, robotics), a library, auditorium, and three activity rooms serving its ~500-student community. With both indoor and outdoor sports facilities—covering volleyball, cricket, skating, horse-riding, taekwondo and more—as well as a

medical clinic and CCTV-monitored premises, the campus supports safe, multi-faceted childhood exploration.

RIGOUR MEETS REAL-WORLD RELEVANCE

TIPS offers classes from Nursery through Class 10 under the CBSE curriculum, featuring student-centred pedagogies focused on inquiry, multiple intelligences, and differentiated learning. The school hosts major board and competitive exams on-site, and reports a consistent 100% board pass rate, with students achieving scores higher than city averages. Fully accessible mobile labs, class presentations, and global exchange programmes further broaden students' academic horizons.

ROOTED IN VALUES, GROWING IN RESPONSIBILITY

At TIPS Bengaluru, character education isn't an afterthought—it's central. Weekly life-skills classes, mindfulness initiatives, and peer-building exercises foster resilience and compassion. The

school's dedication to Service Before Self is reflected through community campaigns, heritage walks, and environmental stewardship—all woven into the educational journey. Parents frequently commend the caring, engaged faculty for making learning both meaningful and enjoyable .

ACCESSIBLE, INCLUSIVE, AND ASPIRATIONAL

TIPS keeps admission open for Nursery through Class 10, maintaining a moderate fee structure (around ₹88,800/year) and student-teacher ratio of roughly 25:1. The school offers nutritious meals, reliable transport services, and robust safety protocols including fire safety, electrical audits and emergency medical readiness . Though currently focused on CBSE, it plans to introduce IB and

Cambridge curricula, reaffirming its commitment to inclusive, future-ready education .

WHY TIPS BENGALURU MATTERS

In a city brimming with choices, The Indian Public School Bengaluru demonstrates that academically strong, value-centred education need not be confined to traditional methods. It shows how a modern CBSE school can be globally-aware, emotionally nurturing, and experientially rich—right next to Bangalore's techno-hubs. TIPS equips learners not only to excel in exams but to lead balanced lives, anchored in curiosity, empathy, and civic purpose. For parents and students near Manyata Tech Park seeking more than scores, this school offers a bridge to a brighter, more meaningful tomorrow.

ST JOSEPH'S SCHOOL, BANGALORE

Building Foundations

sjscbse.edu.in

St Joseph’s Indian Institutions, guided by the Jesuit Fathers, carry forward a remarkable 115-year legacy of service and education in Bangalore. Rooted in the motto “Faith and Toil,” the newly established co-educational St Joseph’s School (founded in 2014) extends this mission by nurturing young minds from Kindergarten through Class 12. The school instils core values—Compassion, Commitment, Conscience, Creativity, Critical Thinking, Collaboration, Competence, and Care for Earth and Cosmos—designed to shape Josephites into conscientious, capable, and caring contributors to society.

SPIRITUAL LEADERSHIP AND HOLISTIC FORMATION

At St Joseph’s, spiritual development is woven seamlessly with personal growth. Rooted in Christ and dedicated to service, the Jesuit vision aims to form “men and women for others”. From Kindergarten onwards, students engage in self-reflection, moral inquiry, and service projects that cultivate leadership grounded in empathy,

ingenuity, and self-awareness. The goal is clear: students aren’t just educated; they are formed spiritually, intellectually, socially, physically, and aesthetically.

ACADEMIC EXCELLENCE BACKED BY VALUES

The curriculum spans Kindergarten to Grade 12, prioritizing academic rigour while always honouring spiritual and ethical grounding. Emphasizing critical thinking and creativity, students engage in interdisciplinary projects and value-based discussions. Under the banner of “Faith and Toil,” each Josephite is encouraged to pursue excellence not just in marks, but in character and service—the ignatian ideal of Magis, or “the more”.

A CAMPUS THAT FUELS GROWTH

While part of the broader St Joseph’s Institutions network, the CBSE school established in 2014 benefits from the heritage and infrastructure of campuses with deep roots in Jesuit education.

Though the specific layout spans Kindergarten to Grade 12, students also tap into athletic, fine arts, and spiritual spaces fostered across the Institutions—libraries, labs, auditoria, prayer halls, sports fields—all caring for body, mind, and spirit.

NURTURING BY EXAMPLE: CHARACTER IN ACTION

Life at St Joseph's emphasizes character through doing. Students lead weekly mindfulness and moral-reasoning sessions, participate in heritage walks, and join community outreach drives. Jesuit values—social justice, human dignity, environmental care—aren't abstract concepts but lived through eco-initiatives, inclusion programs,

and solidarity with the marginalised. The result? Josephites who are both high achievers and humble leaders.

WHY ST JOSEPH'S SCHOOL MATTERS

In today's world, where academic brilliance must align with character and empathy, St Joseph's School delivers the full package. From their earliest years, students grow with deep roots—spiritual, social, intellectual, and ethical. By balancing rigorous education with spiritual growth and service, the school truly embodies "Faith and Toil." It doesn't just prepare children to excel in exams—it prepares them to excel in life and to shape a more just, compassionate society.

VIDYANIKETAN PUBLIC SCHOOL BENGALURU

*A Warm Welcome to Your Child's
Learning Journey*

vidyaniketan.edu.in

I extend a very warm welcome to you and your family to Vidyaniketan Public School (VPS), where choosing the right place for your child's growth isn't just a decision—it's the start of a transformative journey. Established in 1986 under the Vidyaniketan Education & Cultural Trust, VPS has built a legacy of academic excellence, nurturing character, and community engagement. Recognizing the mix of aspirations every parent carries, we're thrilled you're considering VPS as a preferred school for your child—a school grounded in the values of exploration, engagement, and evolution.

A VISION ROOTED IN GROWTH

At VPS, our motto—Together We Explore, Engage & Evolve—isn't just a tagline; it's the principle that guides our holistic educational journey. From Pre-primary through Class 12, children embark on a pathway that encourages inquiry-based learning, critical thinking, and ethical awareness. We strive not only for high board results, but also for strong

character, creativity, and social responsibility—preparing learners for life beyond textbooks.

INFRASTRUCTURE THAT INSPIRES

Spread across a green, vibrant campus in Jnana Ganga Nagar, VPS boasts modern infrastructure tailored to comprehensive growth. With 133 classrooms, smart and air-conditioned, alongside fully equipped science, composite, computer, and biotech labs, every child has the environment to explore academic curiosities. Our spacious library, art studios, and auditorium complement the academic focus, while indoor and outdoor sports facilities, including a splash pool and skating rink, foster physical well-being.

STUDENT-CENTRED TEACHING AND CURRICULUM

Guided by CBSE standards, our dynamic, student-centred pedagogy encourages active learning through projects, experiments, debates, and collaborative problem solving. With smaller

class sizes (average 35 students, approx. 35:1 ratio), teachers deliver personalised attention and mentorship. Our robust support system includes expert staff, continuous teacher development, and structured career guidance to help students find and follow their passions.

CHARACTER, SERVICE, AND SKILLS FOR LIFE

At VPS, academic curiosity lives alongside character-building. Weekly life-skills, art, music, and mindfulness sessions help students grow in emotional intelligence and social awareness. Through clubs, community service, environmental initiatives, and vocational workshops, children connect their learning to real-world impact—nurturing leaders who care for others and our planet.

SEAMLESS ADMISSION AND SUPPORTIVE ENVIRONMENT

Our transparent admission approach includes

clear eligibility criteria, a student readiness interview, and supportive parent orientation. With monthly tuition around ₹80,000–₹115,000, GPRS-equipped transport, nutritious meals, medical room and nurse on-site, and 24/7 safety protocols (CCTV, fire systems, boundary walls), VPS offers comprehensive care.

WHY VIDYANIKETAN PUBLIC SCHOOL MATTERS

In today's fast-changing world, Vidyaniketan Public School exemplifies how a CBSE school can marry academic strength with emotional nurturing, ethical grounding, and life skills. From early education through Class 12, students grow academically and morally in a secure, inspiring environment—with peers, teachers, and community guiding them. Choosing VPS isn't just choosing a school—it's choosing a journey of exploration, engagement, and evolution. We applaud your decision to begin this journey and warmly welcome you to the Vidyaniketan family.

WHITEFIELD GLOBAL SCHOOL

*A School with Purpose at
Its Core*

wgs-cet.in

In a world where the definition of success is constantly evolving, schools must go beyond academics to build responsible, ethical, and globally aware individuals. Whitefield Global School (WGS), an institution under the Chalasani Education Trust, has taken this mission to heart. Located in the thriving suburb of Whitefield, Bengaluru, WGS is recognized not just as a center of learning, but as a community of transformation—where students are nurtured to become confident, compassionate, and competent leaders of the future.

Driven by the belief that education is not merely the acquisition of knowledge but the cultivation of character, conscience, and curiosity, WGS is committed to delivering a holistic learning experience that is both relevant and inspiring.

HOLISTIC DEVELOPMENT FOR A GLOBAL FUTURE

At WGS, the focus is not only on academic excellence but also on shaping well-rounded

individuals. The school integrates academics with co-curricular activities, emotional intelligence, and value education to create a learning environment where each child is recognized, respected, and empowered.

With a thoughtfully designed curriculum aligned to national and international standards, students are encouraged to develop critical thinking, collaboration, creativity, and communication skills—all vital competencies in a fast-evolving world.

From early years to higher grades, the educational approach at WGS fosters independent inquiry, practical application, and lifelong learning habits. Teachers serve as mentors, guiding each student to explore their strengths, address their challenges, and find their unique path.

A CULTURE OF VALUES AND VISION

What distinguishes Whitefield Global School is its strong emphasis on values-based education. Rooted in the philosophy of ethical leadership

and social responsibility, students are encouraged to look beyond personal success and reflect on their role in contributing to a just, sustainable, and inclusive society.

Programs focusing on civic engagement, community service, and environmental stewardship are deeply embedded in the school culture. Whether it's organizing donation drives, participating in clean-up campaigns, or visiting elderly homes, WGS students are continuously exposed to real-world issues and human experiences that shape them into empathetic changemakers.

FACILITIES THAT INSPIRE GROWTH

WGS offers a well-equipped, modern campus that supports academic learning and extracurricular pursuits equally. Classrooms are technology-enabled and designed to foster interaction and creativity. Science and computer labs, libraries,

arts studios, and sports facilities provide students with ample space and opportunity to explore diverse interests and talents.

The school also promotes physical well-being through structured sports programs and fitness activities. Games like basketball, football, athletics, and yoga are woven into the daily rhythm of school life to ensure that every student enjoys physical, mental, and emotional balance.

EMPOWERING EVERY CHILD'S JOURNEY

Whitefield Global School believes that every child is unique—and this belief informs every aspect of its educational philosophy. Through personalized guidance, leadership programs, career counseling, and student-led initiatives, WGS helps learners discover who they are and what they stand for.

Whether they choose a path in science, business, the arts, or social impact, students graduate from WGS with clarity of purpose, strength of character, and a global outlook that prepares them to thrive in diverse environments across the world.

WHY WHITEFIELD GLOBAL SCHOOL SHINES

In an era where adaptability, empathy, and global competence are more important than ever, Whitefield Global School stands out as a nurturing, future-ready institution. With its blend of academic excellence, values education, and forward-thinking vision, WGS is truly shaping the next generation of responsible global citizens—students who not only dream big, but also act wisely.

Creating a single platform
for National Grid's multiple buyers
with multiple technologies. That's

certainty

National Grid, that owns and operates an array of electricity transmission and gas distribution operations across the UK, wanted to sell four of its gas distribution networks. Timely delivery of quality data was the most crucial aspect of the separation process. As one of the world's fastest growing technology and business solutions providers, Tata Consultancy Services (TCS) managed this complex data migration process by adapting to the varied technology landscape and extraction schedule of each buyer. TCS also worked with other vendors and built a common migration platform which reduced costs and simplified the process. And of course, enabled National Grid to experience certainty.

TATA CONSULTANCY SERVICES

Experience certainty.
